Are you concerned about your LBOTE students accessing schoolwork at home because their families come from different language backgrounds or parents do not speak English?

Do you have questions about how you can engage parents so that students can learn more effectively at home?

Dr. Marianne Turner, Dr. Anne Keary and Dr. Katrina Tour from the Education Faculty at Monash University have set up this Facebook page to stimulate discussion and the sharing of ideas on these very important concerns.

A space for professional learning activities

A space to ask your questions

A space to find teaching ideas and resources
